EU Cookie Compliance module	cookie_agreed	This cookie sets whether the user has agreed to the Cookie Policy that appears in a popup when a visitor first comes to the site. The cookie has a duration of 100 days and does not store any personal data.	There is no way to disable this cookie, but you can disable cookies from your browser. For help on how to do this, please see <a href="http://www.allaboutcookies.org/manage-cookies/">http://www.allaboutcookies.org/manage-cookies/</a>
Google Analytics	_ga, _gat, _gid	The _ga cookie is typically written to the browser upon the first visit. If the cookie has been deleted by the browser operator, and the browser subsequently visits our site, a new _ga cookie is written with a different unique ID. In most cases, this cookie is used to determine unique visitors to our site and it is updated with each page view. Additionally, the _gid cookie is provided with a unique ID that Google Analytics uses to ensure both the validity and accessibility of the cookie as an extra security measure. The _gat cookie is set to allow us to track individual visitors and their use of the site. It is set when you first visit the site and updated on subsequent visits. We do not use Google Analytics to collect personal information, other than IP address, from our visitors.	To provide website visitors with more choice on how their data is collected by Google Analytics, Google Analytics offers the Opt-out Browser Add-on. The add-on communicates with the Google Analytics JavaScript (ga.js) to indicate that information about the website visit should not be sent to Google Analytics. <a href="http://tools.google.com/dlpage/gaoptout">http://tools.google.com/dlpage/gaoptout</a>
